Benefits to your program

- Reduces program administrative load.
- Promotes a standardized course delivery.
- Reduces time commitment for the in-person portion of the training.
- May provide options to increase course delivery frequency.
- Makes the training more publicly available.
- Provides a way for students to make up a missed unit.
- May act as a refresher tool for trained CERT volunteers.
- Great option for workplace and school-based CERT programs.
- Available in **Spanish**.

New Online CERT Training

Online Community Emergency Response Team Training
Followed by in-person, hands-on practical experience
Planned by your local CERT Program!

Online CERT has been developed to provide the FEMA standardized 2019 curriculum to learners across the United States, meeting the lecture portion of the CERT training requirements. Once completed, follow up with your local CERT program to complete the hands-on practical portion.
